will take quick look

Hello Karen,

I will try to take a quick look at the Work Plan, and will plan to attend your Monday 11 am meeting.

Subject: Fw: Work Plan for Completion of the BDCP EIR/EIS - INTERNAL DRAFT

Laura -

We have an early "opportunity" to review the consultant's workplan for the BDCP DEIR/S. Essentially, this is ICF's review of the prior consultant's Admin Draft and their plan for revising it.

I think we need to look at it. However, Reclamation wants comments back by Tuesday and even if we could review this 90+ page workplan by then, I'm not sure how much it'll mean to us since we haven't read (and don't have) the current Admin Draft.

Can you at least skim it? And then maybe we can talk on Monday about what is useful and possible? (We have a standing team meeting at 11:00 on Monday if you are free then.)

Our main goal remains to tell them as early as we can where it doesn't look like they will be doing the analysis that we want to see in the DEIS or in the 404 permit application. Thanks. - Karen

p.s. don't look at page 93 though. you'll be sick

Subject: Work Plan for Completion of the BDCP EIR/EIS - INTERNAL DRAFT

CONFIDENTIAL – INTERNAL WORKING DRAFT-

Hi Karen,

Per our earlier discussion, attached is the draft work plan for the BDCP EIR/S process. Please let me know if you see any red flags from EPA's perspective by Tuesday, August 23, 2011 so that we can include as part of our federal consolidated set of comments. Please use the attached comment form to document & track your comments. The focus of the work plan is an assessment of the content of the current draft sections of the EIR/EIS including the existing conditions, methodology, and environmental consequences for each resource section and recommendations to complete each resource section. The work plan also identifies data gaps and the current status of the numerous modeling efforts required to support the EIS/EIR. Feel free to call if you have any questions or need more info on this. Thanks, FB
